BUSINESS MODEL CANVAS

KEY PARTNERS

Who are your partners?

- Model and evidence providers, including OpenCode and TypeSafe/Jev.
- Google for optional Calendar, Gmail and Tasks connections.
- Proposed: pilot business owners and communities for feedback and referrals.

KEY ACTIVITIES

What are the most important things the company must do to make the biz work?

- Maintain the app, test workflows and fix reliability issues.
- Demonstrate the product, install it and train new customers.
- Collect feedback and support meeting, task and content workflows.

KEY RESOURCES

What are the most important assets to make the business work?

- Rust app, local database and meeting and content workflows.
- Development skills, a laptop and time for customer support.
- Connected accounts, provider credentials and a $500 launch budget.

VALUE PROPOSITION

What you you building & for whom? What pain points are you solving?

- Help owners retain meeting details and turn next steps into reviewed tasks.
- Keep people, tasks and sourced research together for easier follow-up.
- Offer optional content workflows for source-backed ideas, review and export.

CUSTOMER RELATIONSHIP

How do you get, keep & grow customers?

- Offer a guided free demo before any paid local setup.
- Provide hands-on setup to limit extra work for busy owners.
- Offer optional monthly support; collect feedback on price and effort.

CHANNELS

How will I sell my product?

- Proposed: LinkedIn demos for owners with frequent client meetings.
- Proposed: a website with a demo and setup booking form.
- Proposed: referrals from pilot owners and small-business communities.

CUSTOMER SEGMENTS

Who is the target audience, (be specific – age, gender, demos, geographic, etc.)

- Gary: business owner who loses track of emails and would pay to save time.
- Owners with frequent online or phone meetings and manual follow-up.
- Budget-conscious solopreneurs like Fiona who need a low-effort solution.

COST STRUCTURE

What are costs needed to build the business model?

- Launch estimate: $500, assuming an existing laptop and internet.
- Budget for provider tests, website, backups and pilot onboarding.
- Founder development/support time; reserve for unexpected costs.

REVENUE STREAMS

How does the company make money?

- Proposed: $199 one-time local setup and onboarding service.
- Proposed: optional $29 per month for support and update help.
- Customers pay their own model and research provider usage fees.
